The 2016 6th Annual IDSA-STL Student Design Competition

in partnership with the

SAINT LOUIS SCIENCE CENTER

IDSA STL

SAINT LOUIS science center

WHEN: Saturday, October 15th 2016

WHERE: Saint Louis Science Center, Boeing Hall South

Open to all students enrolled in a post-secondary Institution within the IDSA Midwest District.
Teams must be composed of at least 2 people with a maximum of 3 teams per school.

CHALLENGE TOPIC:

Amongst a rapidly rising global population, worldwide agricultural resources are diminishing. Current trends have pointed toward urban farming as an opportunity to help satisfy food security pressures within these sectors. This year, we challenge teams to utilize design thinking methods to evaluate urban farming and to propose an innovative product solution that can offer food security for our urban populations.

KEYNOTE SPEAKER:

Maddie Earnest, GROW Exhibition Manager, Saint Louis Science Center; founder and co-owner, Local Harvest Grocery; co-author of Missouri Harvest.
