

# Loop•Ed.

A food waste challenge  
to close the nutrient loop in public schools.

**Create a systems-based solution that reduces food waste in public schools by generating a circular economy concept that engages and empowers the students themselves.**

**Loop•Ed.**

Create a systems-based solution that reduces food waste in public schools by generating a circular economy concept that engages and empowers the students themselves.

## TEAMS:

- We invite all ages and disciplines!
- Team size limit: 3 people
- Three winning teams will be selected to present their concepts at NYCxDesign (Fall 2022)

Loop•Ed.

# **SUBMISSIONS | 5 SLIDES:**

**Slide 1: Hero shot, Team name**

**Slide 2: How it works**

**Slide 3: Implementation strategy**

**Slide 4: Your co-creation component:**

**How did you work with students to create  
or verify your concept?**

**Slide 5: Key benefits**

**DEADLINE:**  
**JULY 1, 2022**

**EMAIL**
