

MADE IN CHINA

THIS CAN BE EASIER THAN YOU EVER THOUGHT POSSIBLE

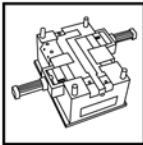

Thanks to you, your client is off to a great start. You've designed their product to perfection and it's ready to be produced. The next step, however, is a little tricky. Manufacturing in China is probably their best option, but how do you help them have the best experience possible?

Send them to Far East Manufacturing Services. From tooling to receipt of final finished goods, we'll take care of everything necessary to ensure their product arrives ready for market.

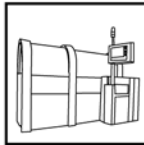

We own our tooling shop and production facilities which means that we can get jobs done fast and inexpensively. Plastics or steel, complicated or simple, bulk production or specialized runs, it doesn't matter. We'll work with you and your client to get the job done to exact specifications.

It all starts with a free quote. Just visit our site and send us your drawings. We'll give you our best quote on the services you need.

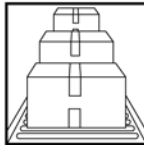

American service and Chinese pricing. Does it get any easier than that?
